

Introducing the Graduate Midwifery Exchange Program. A collaboration between Western Health and Djerriwarrh Health Services.

Enabling the graduate midwife to experience midwifery practice in both tertiary and regional health services.

We would love you to join us at Djerriwarrh Health Services Maternity Services, located in Bacchus Marsh (about 45 minutes from Sunshine).

Our Maternity Service

Our newly refurbished Maternity Unit has:

6 Birth suites;

8 Postnatal beds;

an Antenatal Assessment Unit; &

3 Cot Special Care Nursery (level III).

Our Maternity Services also supports an Antenatal Clinic and provides Domiciliary Care to women in their homes.

Our Women

Bacchus Marsh Maternity Services accepts low to medium risk women from 37+ weeks.

Our approach promotes pregnancy and childbirth as a normal healthy event.

We provide supportive care for healthy women with uncomplicated pregnancies from first antenatal visit to first week at home visit.

Your Graduate Experience

You will participate in a 12 week rotation to DjHS.

You will be provided with up to 8 supernumerary days to orientate to our Maternity Services.

You will be welcomed into friendly and supportive teams.

You will be part of the continuity of care for women, working in an integrated unit across antenatal clinic, birth suite, postnatal and domiciliary care.

Please contact us to arrange a meet & greet and tour of our Maternity Services.
